The King's Avatar (2018)

Score: **8.2**

Rank: **#384**

The All-Star Tournament is a three-day event that allows e-sports participants from various professional clubs to display their skills, while also giving casual Glory players the chance to interact with pros in the flesh.

Retired top-tier Glory player Ye Xiu agrees to watch the tournament together with Tang Rou and Chen Guo after the latter manages to get ahold of three tickets. It is a strange sensation for Ye Xiu, as unlike previous occasions, this time he attends the tournament as a spectator, not a participant. However, despite his attempts to keep a low profile, events in the All-Star Tournament may force the former Glory legend back into the limelight.
